

SHIPMENT EVIDENCE

Representative Container Loading Record

Public summary • Shipment and customer identifiers removed

Privacy and scope

The public record shows only representative loading stages. The container number, customer brands, product labels and shipment-specific product mix have been excluded. These images document container loading condition only and do not certify any specific product or shipment.

Loading sequence

	
01 — Empty container condition before loading.	02 — Early loading stage and carton placement.
	
03 — Progressive loading and space utilization.	04 — Near-complete interior loading condition.
